or accident).

TAN PRIMER PIGMENT

FO20001637 Product code Chemical Name Mixture CAS-No. Mixture

Product Use : Industrial Applications

2. COMPOSITION/INFORMATION ON HAZARDOUS INGREDIENTS

Components	CAS-No.	Weight %
Chrome yellow (Lead chromate pigment)	1344-37-2	1 - 5
Methyl ethyl ketone	78-93-3	5 - 10
Cyclohexanone	108-94-1	10 - 30
Titanium dioxide	13463-67-7	60 - 100

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

Flammable. May be harmful if inhaled. Harmful if swallowed. May cause skin irritation. Flammable liquid and vapor. Vapors may be irritating to eyes and respiratory tract. This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. In addition, heating or processing this material may result in product degradation or byproduct formation creating additional hazards. See Sections 8 and 11 for additional details.

POTENTIAL HEALTH EFFECTS

Routes of Exposure: : Inhalation, Skin contact, Ingestion

Acute exposure

: Excessive inhalation of product vapors may cause respiratory irritation, Inhalation

headaches, dizziness, and/or nausea.

: May be harmful if swallowed. May cause nausea, abdominal spasms Ingestion

and irritation of the mucous membranes.

: Liquid, aerosol, or vapors of this product are irritating and may cause Eyes

tearing, reddening, and swelling accompanied by a stinging sensation

and/or a feeling like that of fine dust in the eyes.

 Page 2 of 8

 Revision Date 10/10/2002
 Print Date 11/6/2011

Skin : Prolonged or repeated skin contact can cause de-fatting and drying of

the skin which may result in skin irritation and dermatitis (rash).

Chronic exposure : Refer to Section 11 for Toxicological Information.

Medical Conditions Aggravated by Exposure: : Individuals with chronic respiratory disorders (i.e. asthma, chronic bronchitis, etc.) may be adversely affected by any airborne contaminant.

4. FIRST AID MEASURES

Inhalation : Move to fresh air in case of accidental inhalation of vapours or

decomposition products. Seek medical attention after significant

exposure.

Ingestion : Do not induce vomiting without medical advice. If conscious, drink

plenty of water. Seek medical attention if necessary.

Eyes : Rinse immediately with plenty of water for at least 15 minutes. If eye

irritation persists, seek medical attention.

Skin : Wash off with soap and plenty of water. If skin irritation persists seek

medical attention.

5. FIRE-FIGHTING MEASURES

Flash point : Less than 75 °F (24 °C)

Flammable Limits

Upper explosion limit : No data available.

Lower explosion limit : No data available.

Autoignition temperature : No data available.

Suitable extinguishing media : foam, dry chemical, carbon dioxide (CO2), Water spray.

Special Fire Fighting

Procedures

Fullface self-contained breathing apparatus (SCBA) used in positive pressure mode should be worn to prevent inhalation of airborne

contaminants.

Unusual Fire/Explosion

Hazards

: None

6. ACCIDENTAL RELEASE MEASURES

Personal precautions : Wear appropriate personal protection during cleanup, such as

impervious gloves, boots and coveralls.

Environmental precautions : Should not be released into the environment. The product should not

be allowed to enter drains, water courses or the soil.

Methods for cleaning up : Contain and collect spillage with non-combustible absorbent material,

(e.g. sand, earth, diatomaceus earth, vermiculite) and place in container for disposal according to local / national regulations (see

MATERIAL SAFETY DATA SHEET

TAN PRIMER PIGMENT

Version Number 1.0 Page 3 of 8 Revision Date 10/10/2002 Print Date 11/6/2011

section 13).

7. HANDLING AND STORAGE

Handling Flammable liquid. Keep away from flames, hot surfaces, and sources

> of ignition. Use of non-sparking or explosion-proof equipment may be necessary. Never use compressed air for transferring product. Ensure all equipment is electrically grounded before beginning transfer operations. Take measures to prevent the build up of static electricity.

Use only in area provided with appropriate exhaust ventilation.

Store below 120 °F (49 °C) Keep containers tightly closed in a cool, Storage

well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Flammable Liquid. Check local fire regulations for sprinkler or explosion proof storage location requirements.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Respiratory protection Airborne contaminant levels should be maintained below the

> occupational exposure guidelines. When respiratory protection is required, use an approved air-purifying or positive pressure

supplied-air respirator, depending upon potential airborne contaminant concentrations. Employees using respirators must be properly trained. Employers must follow applicable regulations such as OSHA 29 CFR

1910.134.

Eye/Face Protection Wear goggles or face shield during operations that present a splash

potential.

Hand protection : Protective gloves.

Skin and body protection Choose body protection according to the amount and concentration of

the dangerous substance at the work place.

Additional Protective

Measures

Safety shoes.

General Hygiene

Considerations

Handle in accordance with good industrial hygiene and safety practice.

Wash hands before breaks and at the end of workday. Ensure adequate

ventilation, especially in confined areas.

: Provide general and/or local exhaust ventilation to control airborne Engineering measures

contaminant levels below the exposure guidelines.

Exposure limit(s)

9. PHYSICAL AND CHEMICAL PROPERTIES

Form : Liquid Evaporation rate : Faster than Butyl

Acetate

: Liquid Specific Gravity : Not determined Appearance Color Bulk density : Not applicable. : TAN Odor : Solvent Vapor pressure : Not determined Melting point/range : Not applicable. Vapor density : Heavier than air. **Boiling Point:** : No data available. pН : Not determined

Water solubility : Negligible

10. STABILITY AND REACTIVITY

Stability : Stable.

Hazardous Polymerization : Will not occur.

Conditions to avoid : Keep away from oxidizing agents and open flame. Heat, flames and

sparks.

Incompatible Materials : Incompatible with strong acids and oxidizing agents.

Hazardous decomposition

products

: Carbon dioxide (CO2), carbon monoxide (CO), other hazardous

materials, and smoke are all possible.

11. TOXICOLOGICAL INFORMATION

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Toxicity Overview

This product contains the following components which in their pure form have the following characteristics:

CAS-No.	Chemical Name	Effect	Target Organ
1344-37-2	Chrome yellow (Lead	Systemic effects	central nervous system,
	chromate pigment)		reproductive system.
78-93-3	Methyl ethyl ketone	Irritant	Eyes, Skin, Respiratory system.
		Systemic effects	central nervous system.
108-94-1	Cyclohexanone	Systemic effects	Eyes, Skin, Respiratory system, Liver, Kidney, central nervous system.
13463-67-7	Titanium dioxide	Systemic effects	Respiratory system.

LC50 / LD50

This product contains the following components which in their pure form have the following toxicity data:

CAS-No.	Chemical Name	Route	Value	Species
78-93-3	Methyl ethyl ketone	LC50	32 gm/m3	mouse
		Oral LD50	4,050 mg/kg	mouse
		Dermal LD50	6,480 mg/kg	rabbit
108-94-1	Cyclohexanone	LC50	8000 ppm	rat
		Oral LD50	1620 ul/kg	rat

Carcinogenicity:

This product contains the following components which in their pure form have the following carcinogenicity data:

CAS-No.	Chemical Name	OSHA	IARC	NTP
1344-37-2	Chrome yellow (Lead	no	1	1
	chromate pigment)			

IARC Carcinogen Classifications:

- 1 The component is carcinogenic to humans.
- 2A The component is probably carcinogenic to humans.
- 2B The component is possibly carcinogenic to humans.

NTP Carcinogen Classifications:

- 1 The component is known to be a human carcinogen.
- 2 The component is reasonably anticipated to be a human carcinogen.

Additional Health Hazard Information:

MATERIAL SAFETY DATA SHEET

TAN PRIMER PIGMENT

Version Number 1.0 Page 6 of 8 Revision Date 10/10/2002 Print Date 11/6/2011

Chrome yellow (Lead chromate pigment) 1344-37-2 Systemic effects include neurotoxic, teratogenic, fetotoxic and reproductive with abdominal pain, anemia, pallor, decreased hand grip strength with characteristic "wrist drop".

12. ECOLOGICAL INFORMATION

Persistence and degradability : No data available.

Environmental Toxicity : Adverse ecological impact is not known or expected under normal use.

Bioaccumulation Potential : No data available.

Additional advice : No data available.

13. DISPOSAL CONSIDERATIONS

Product : Dispose of properly. Do not dump into sewers, on the ground, or into

any body of water. Where possible, recycling is preferred to disposal or incineration. The generator of waste material has the responsibility for proper waste classification, transportation and disposal in

accordance with applicable federal, state/provincial and local

regulations.

Contaminated packaging : Recycling is preferred when possible. The generator of waste material

has the responsibility for proper waste classification, transportation and disposal in accordance with applicable federal, state/provincial

and local regulations.

14. TRANSPORT INFORMATION

U.S. DOT Classification

Proper Shipping Name: Flammable liquids, n.o.s.

Technical Name: Methyl ethyl ketoneCyclohexanone

Hazard Class / Division 3

UN Number UN1993
Packing Group II
Label Required 3

Hazardous Substance Not applicable Reportable quantity: 29,991 LB

ICAO/IATA Refer to specific regulation.

IMO / IMDG Refer to specific regulation.

15. REGULATORY INFORMATION

US Regulations:

OSHA Status : Classified as hazardous based on components.
